APR 2021 — Joined SUS Corporation

OCT 2021 — Dispatched to Mitsubishi Electric Engineering as an on-site engineer

FEB 2023 — Resigned from SUS Corporation

OCT 2024 — Enrolled in the Software Engineering Technician program at Centennial College, Toronto

PROFILE

A motivated software engineering student with approximately three years of professional experience in Japan, including two years at Mitsubishi Electric Engineering. Skilled in programming, application development, and system support. Currently studying at Centennial College in Canada to further deepen my expertise in software engineering. Known for being responsible, detail-oriented, and enthusiastic about contributing to team projects.
As a hobby, I enjoy developing games. I have created games using Unity and Windows Forms, and I hope to try Unreal Engine in the future.
